## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 14 and 16-18 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The Applicant cancelled claims 1-13 and 15, amended claims 14 and 16-18, and presented arguments in favor of allowance of the existing claims in his "Amendment" received November 17, 2003. The Applicant demonstrated to the Examiner's satisfaction that the previous 35 U.S.C. 103(a) rejection is no longer valid since the newly amended independent claim 14 now contains allowable material. With respect to the independent claim 14, prior art fails to disclose or make obvious an ion source with an ionization region and means for introducing an ionizable gas into the region between the anode and cathode, with the surface of the anode exposed to the ionization region being a layer of Titanium Nitride.

The dependent claims 16-18 are allowed by virtue of their dependence upon claim 14.

### ***Drawings***

3. Formal drawings are required in this application because the components in the drawings are hand labeled.

### ***Conclusion***

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
